Glass2Sand Sustainable Products

ELIMINATE ALL YOUR GLASS BOTTLE RECYCLING COSTS

About Us

Our G2S machine reduces bottles to sand instantly, thereby eliminating your glass bottle recycling costs. As the plan going forward is for all bottles to become non returnable, now is the time to get a solution to the expense of glass bottle pick up charges.

Quick and easy to operate, it will also

- **eliminate your glass recycling costs**
- **guarantee huge reductions in your waste management costs**
- **significantly reduce glass bottle storage requirements**
- **reduce labour costs**
- **Volume reduction up to 90%**
- **120 beer bottles or 60 standard wine bottles reduce to a bucket of sand**
- **75% silica sand, safe to handle, and used in flower and shrub beds, pathways, and sand blasting**
- **For more information go to our website www.glass2sand.com**

Our machine is ideally suited for premises which have a small storage area. Only 60cm square, 140cm high, and on wheels, making it highly mobile . Works on single phase electricity.

Customer Testimonials

"It is easy to use, safe and efficient. In a short space of time we have seen a reduction in our glass bottle storage requirements, glass recycling, and labour costs. We have already seen significant savings in our overall recycling costs. Being located beside the Rock of Cashel we are very conscious of our impact on the environment around us. We would have no hesitation in recommending this machine to any business."

Brian Boru Pub/ Restaurant Cashel Co Tipperary.

"As more and more bottles become no returnable we have made huge savings by eliminating all our glass pick up charges. I would thoroughly recommend the Glass 2 Sand machine. As we are a large hotel close to Muckross House and have a number of large bars and function rooms we have recently purchased a second machine which will pay for itself in a very short time."

Killarney Oaks Hotel.

"We operate a very busy Nightclub and Bar in Kinsale and have had an excellent experience with Glass 2Sand machine. It has brought huge savings in many areas- monetary, labour and storage requirements."

Bacchus/Folkhouse, Kinsale Co Cork
